\*comes with an assortment of filters\*

**NORTHSTAR PRESSURE WASHER-** \$2500 new

Clean with a maximum of 250°F water and really get the job done right! Premium industrial triplex pump with brass manifold and ceramic plungers. Coil assembly is fully encased in a custom-molded ceramic fiber refractory combustion chamber with low-thermal conductivity and resistance to thermal shock. Parker Hannifin Raycor™ fuel filter and water separator prevents burner ignition problems Rear hose-entry spray gun with split lance keeps the hose out of the way for easy handling. 50ft. nonmarking hose, industrial spray gun with nozzles for different cleaning needs, diesel burner, and more.

- Contact with water or oil will not damage insulation; upon drying the insulation regains its original shape
- Uses 1/2in. Schedule 80 extra-heavy pipe
- Forged brass manifold gives improved strength over cheaper aluminum
- Easy Start stops pressure build-up during start-up
- Adjustable pressure for job versatility
- Sight glass lets you quickly check pump oil
- 22mm quick connection makes it easy to use multiple attachments
- Adjustable thermostat
- 20 Amp NEMA 5-20R receptacle needs to be a dedicated circuit

**GRAPE PITCHFORK- \$100 new**

Specifically created for the handling of grapes, must and pomace. Its' unique design features tapered and star-profiled tines which allows for the easy piercing and gathering of grapes and pomace. The curved back aids in removing grapes and pomace from the bottom of tanks and vats. The tapered tines guide the matter into the rear of the fork allowing large loads to be moved without spillage.

The material-facing surface of the tines is flat, not round, giving these tools superior handling qualities compared to anything else on the market - and it won't damage or scratch stainless steel tanks and vats!

The Unifork is made of high-grade polypropylene which is virtually unbreakable and immune to rust or rot, and has been approved under FDA regulations for direct food contact.
